### Professional Lighting

- Live events lighting show
- Theaters
- Concert and event halls
- TV stations
- Television program production companies
- Museums
- Architectural Lighting
- Clubs, music scenes

### Professional projection systems

- Public buildings
- Aviation and transportation
- Cinema
- Education
- Hotels
- Live events show
- Retail stores
- Shopping malls
- Sports centers
- Museums
- Theaters

## IN DETAIL:

---

### **Conference - Translation and Audio Guide systems**

- Theaters
- Cinema
- Public buildings
- Museums
- Hotels
- Conference Centers
- Factories

### **Digital Applications & Data Management Networks**

- Municipalities
- Public Organizations
- Museums
- Conference centers
- Corporate environment (video conference)

### **Project Implementation Studies**

- Audio acoustic studies
- Simulation of spaces
- Use of special simulation programs (Ease & Ulysses)
- Equipment installations

---

**All the above activities are supported by the respective Projects Department of Philippos Nakas S.A., under the following structure:**

1. Department of project studies
2. Professional audio department
3. Department of professional lighting

4. Department of professional visual systems
5. Department of digital applications and networks
6. Department of technical support and projects

## EQUIPMENT

---

**Philippos Nakas SA** distributes exclusively in Greece the products of the largest manufacturers of audiovisual equipment. Therefore, the company always manages to use state-of-the-art products at extremely competitive prices.

Our company distributes in Greece the products of the following manufacturers:

**Yamaha / Sennheiser / Neumann Berlin / Bose Professional / NEC / Steinberg / Draper Europe / Rupert Neve Designs / Rode / DB Technologies / Proel / Alesis / Numark / Eurocable / RME / Akai Professional / Audinate / Audient / KRK / Zoom / Radial Engineering / Primacoustic / Sonarworks / Esi Pro**

## STUDY - SUPERVISION

---

The rapid development and the perfect organization of our company in this field results in high efficiency in claiming and successful processing of projects.

The implementation of these projects requires a well-organized structure, trained staff with high standards qualifications, technical support but also products that are at the forefront of new technology.

These conditions compose the best tool for the successful completion of many projects and applications that our company has carried out.

# INDICATIVE LIST OF IMPLEMENTED PROJECTS

## **DIGITAL MUSEUM OF SMYRNA AND NEA SMYRNI OF THE MUNICIPALITY OF NEA SMYRNI**

The Digital Museum of Smyrna and Nea Smyrni of the Municipality of Nea Smyrni was inaugurated on Monday 18/04/2016 by the President of the Republic Prokopis Pavlopoulos emphasizing that it is a real jewelry box of our history and our national heritage.

Our company was granted the project of the relative Open Public Tender carrying out the the supply and installation of audiovisual equipment, fulfilling what was envisioned by the design team of the Municipality of Nea Smyrni for the creation of the Digital Museum.

Specifically, the supplied and installed equipment was about:

- 13 pcs, professional NEC multi touch monitors V-series 42 "and 46"
- 12 pcs, professional monitors NEC 32 "and 42" V-series
- NEC interactive table with professional monitor NEC 46 "P-series"
- 8 pcs, NEC technology projection systems Ultra Short Throw UM series.

The above equipment is supported by large number of peripheral equipment such as, specialist BrightSing media players, PC SHUTTLE, SOUNDTUBE directional speakers, URC control systems etc.

All installation and equipment has been selected to serve the purpose of the Museum which is

to shed light on the events that led to it in the prosperity and destruction of Smyrna and in creation from the ashes of a new world, through always visitor-friendly interactions, applications and video projections.

## **COSTANAVARINO HOTEL**

One of the largest investments of tourism in Europe in summer 2010.

The family of Mr. V. Konstantakopoulos invested a huge amount for the Greek standards for the construction of the project.

The COSTANAVARINO complex in Messinia consists of two main hotel units, golf course, conference center, SPA, and many more other fun facilities.

After the tender held by the construction company AKTOR (manufacturer of the project), Philippos Nakas S.A. was assigned the supply and music system installation to the facilities of the hotel complex.

In total, about 1500 speakers were installed, (wall and roof) in the reception, bar, restaurants, conference rooms, playgrounds, SPA, swimming pools etc.

19 sound distribution centers were installed for 85 different music areas. For the networking and the distribution of music they were used 32 YAMAHA DME4ioC units that support CobraNet audio distribution protocol while for speaker power 110 amplifiers YAMAHA XH-200 were used. Through the fully networked system they are

distributed simultaneously 17 different music programs in selected areas.

All network equipment is controlled by the central control room with possibility of controlling all operating parameters of each local music system. In addition, Philippos Nakas S.a. carried the implementation of all wiring terminals for the conference center as well as the video and audio equipment for the outdoor cinema.

## **CULTURAL INSTITUTE OF PIRAEUS GROUP OF COMPANIES - "SILVER ART MUSEUM"**

Our company was assigned the supply of the following equipment:

Nine professional monitors NEC P series 40 and 46'''.  
Two multi touch screen monitors NEC P series 46'''.  
Five multi touch screen monitors NEC E series 22''' and a variety of IT equipment such as HP Server, QUEST PC, 3D printer, and iOS tablets and Android.

YE / 6 - electronic equipment was implemented under the Operational Program "Competitiveness and Entrepreneurship" EPAN II and it was financed by the ESPA 2007 – 2013 (ETPA co-financing). In recent years and in almost all the museums of the Institute, a variety of YAMAHA audio equipment and NEC display systems have been installed.

31 schools in the region of WESTERN GREECE.

In total our company delivered:

146, YAMAHA keyboards

72, HOHNER guitars

32, AMATI clarinets

57, Bouzouki

456, small percussion instruments

3217, various wind instruments such as harmonicas and recorders

### **SANTORINI ARTS FACTORY**

Supply and installation of sound and lighting equipment in the outdoor events space.

2 YAMAHA QL-5 digital mixers with Dante network RIO-3224D, sound system Line Array NEXO S12, MILOS truss system MT1, theatrical lighting and back line equipment from SENNHEISER, YAMAHA, NEUMANN.

### **ATHENS WATER SUPPLY AND SEWERAGE COMPANY (EYDAP S.A.)**

Supply of NEC monitors for control centers of the water.

### **DOLCE ATTICA RIVIERA HOTEL**

Supply and installation of sound system for the announcements and music systems for the hotel premises with APART Audio Control management system 12.8 and APART speakers as well as 4 systems NEC projectors.

### **MUNICIPALITY OF LAMIA-SUMMER THEATER**

Supply and installation of sound systems at the summer theater of the Municipality of Lamia. The following equipment was installed:  
Audio Line Array DB Technologies system.  
6 stage monitor speakers DB Technologies.  
Wireless system SENNHEISER evolution with eight channel microphones 300 series.  
YAMAHA digital audio mixer TF-3 with 2 units dante Tio1608. Digital TASCAM audio recording units. Cinema sound surround system. Peripheral audio devices.

### **GOLDEN AGE HOTEL**

Design, supply and installation of audiovisual systems in the 2 renovated conference rooms. NEC sound projectors & monitors, YAMAHA systems and SENNHEISER SpeechLine Digital Wireless digital microphones.

## MUNICIPALITY OF ZAKYNTHOS (Zakynthos Theater)

In the context of an Electronic Open Public Tender carried out by the Municipality of Zakynthos our

company was granted the supply and installation of a special equipment at the new Theater of the Municipality. The implementation of the project included the following.

- Stage lighting installations

96 channel ADB dimmer equipment, network DMX and ArtNet, and a variety of luminaires 88 lighting fixtures to cover theatrical performances and conferences.

- Amplified sound system

Audio equipment DB Technologies consisting of a line array system of 10 satellites and 4 sub controlled by RdNet network and 12 monitor stage speakers, side / front fill. 2 mixing consoles YAMAHA QL-5 / Rio3224D / Ro8

- Projection systems

NEC PX1001UL laser projection system, 7m electric projection screen, rear screen view and image transfer equipment through HdBaseT

- Visual messaging system

ASL optical messaging system, 10 stations and a central unit.

- Intercom

Intercommunication equipment and network of 4 main stations and a central unit.

- Other equipment

Variety of peripheral equipment, 8 channel

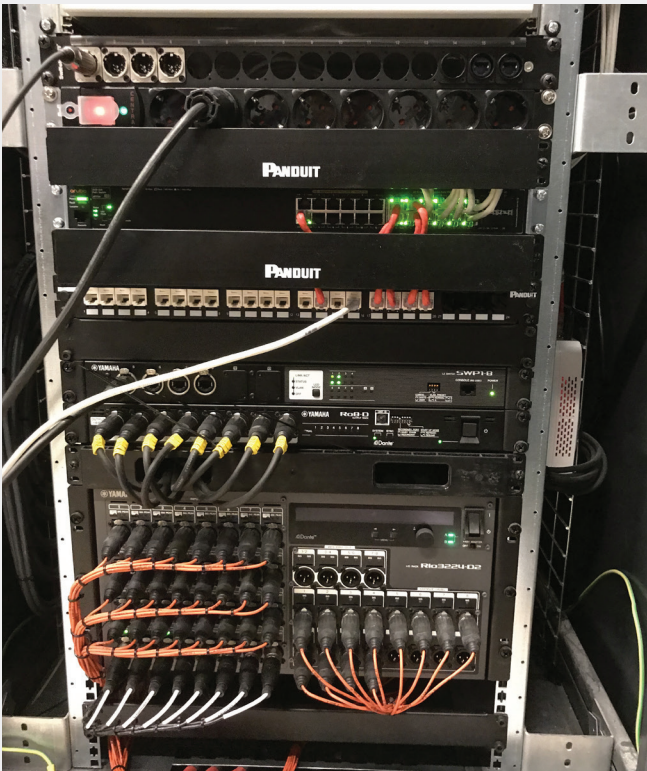

SENNHEISER 300G4 wireless microphones, 27 SENNHEISER wired microphones and NEUMANN, 4 camera systems for the scene and equipment such as Di Box, cables, stands etc.

- Mechanical stage equipment

Includes the equipment of the "technical scene" consisting of central electric curtain, two manual stage towers, three manual gas mechanisms, manual curtain mechanism, two electric stage drops, three electric luminaires, curtain fire safety mechanism. Everything is controlled and fully automated through software and touch screen.

- Seats and stage materials

A total of 348 seats were installed. Additionally the carpet was delivered for the stage as well as 100 portable seats.

## APOLLONION ASTERIAS RESORT & SPA

(Lixouri, Kefalonia)

5 \* complex consisting of "Apollonion", operating since 2010 and "Asterias" operating since May 2019.

Our company was granted the design, supply and installation of music and sound equipment for the new hotel unit "Asterias" as well as

CMX-20-T, CM-6E, H-30-LT-G.

The key to the success of the project is the possibility of remote management and equipment operation control with the use of software configured on the requirements of customer users.

System control "ProVisionaire Control" PC software, design interoperability for management and real-time monitoring for all installed equipment. "ProVisionaire Touch" via iPad for admin control. "Dante Controller" PC software to control the Dante network. "Amp Editor" for the control of the digital amplifiers. "LAN Monitor" to control Yamaha network switch.

## **COSTA NAVARINO, Golf Club Building, Navarino Bay**

Supply and installation of audio equipment YAMAHA MTX-5D music management Dante technology.

Installation includes.

1 x MTX5-D Dante matrix processor, 1 x XMV4140 multi-channel power amplifier,  
1 x SWR2100P-5G Dante network switch, 2 x PGM1 Paging Station Microphone, 3 x DCP1V4S digital Control Panel and many APART and PROEL speakers, CM-6T, CMAR-5T-W, FGS-20.

equipment upgrades to Apollonion hotel unit. Studying the requirements of the customer system selected for the distribution and management of music was the YAMAHA MRX-7D Dante technology.

In total, the equipment was installed in five platforms fully networked with each other in Gigabit network.

The installation includes.

2 x MRX7-D, Dante matrix processor, 4 x XMV8140-D, Dante multi-channel power amplifier, 3 x XMV4140-D, Dante multi-channel power amplifier, 1 x XMV4280-D Dante multi-channel power amplifier, 2 x SWR2100P-10G Dante network switch, 3 x SWR2100P-5G Dante network switch, 2 x PGM1 Paging Station Microphone, 5 x MCP1 touch panel wall mount controller, 1 x DCP1V4S digital Control Panel and many speakers YAMAHA VXS-3FT, VXS-5, VXS-8.CBR-12, DBR-15 and APART CMRQ-108,

### **NOS | Hotel & Villas**

Our company took on the supply and installation of Dante technology BOSE audio system for the management of music.

The amazing landscape where the hotel is built, in conjunction with the excellent adaptation of the speakers in the establishment, offer to the visitor an excellent listening pleasure and audio experience.

### The installation includes:

- 2x BOSE ControlSpace EX-1280 digital audio matrix processor,
- 9x BOSE PowerSpace P4300A Power Amplifier,
- 1x BOSE PowerSpace P21000A Power Amplifier,
- 2x BOSE ArenaMatch Utility AMU208 Speaker,
- 2x YAMAHA Musicast CD-NT670D digital network media player,
- a variety of DesignMax and FreeSpace series speakers,
- and blustream system for audio / video distribution.

In total, the equipment was installed in two platforms fully networked with each other with Aruba switch HPE 1820 series.

The sound system is managed wirelessly via tablet through the Bose application Control Space Remote.

## ATHENS MEGARON CONCERT HALL

Digital mixing consoles with recording systems. Installation of two YAMAHA Rivage PM-7 large format digital consoles at "Christos Lambrakis" and "Alexandra Trianti" halls as well as a YAMAHA CL3 console at "Dimitris Mitropoulos" hall, along with portable multichannel recording systems and implementation of Dante networks.

## HOTEL GRAND HYATT ATHENS

Supply and installation of AV equipment in the ballrooms of GRAND HYATT Athens. BOSE PRO audio products, NEC projection systems and BLUSTREAM audio/video distribution equipment were installed.

## CULTURAL HERITAGE CENTER "KOURETES"

Supply and installation of audiovisual equipment for classrooms, including video equipment, NEC, AVONIC as well as Bose Pro and Yamaha sound systems.
